This plug is abandonware and has not seen an update since 2022.

It's a really good plug-in, but it's a shame that there's no explanation on how to apply the model engine of the accessory. I haven't applied it yet. I'd appreciate it if you could let me know.

Plugin is great... when it works. Filled with bugs and support, whether on github or discord, leaves messages unanswered for days or even weeks at times. I understand if the devs have other stuff to do, they can't always be on top of the plugin, but considering this is listed on the official plugins tab I was hoping it would have more dedicated support like the others in the category.

Great plugin, but can you let me change the message by customizing the set your hat to part?

KukiCrumbles · ★★★★★ · Jun 8, 2022 · Version: 0.3.0

Can we please get this to support 1.17.1. I've been waiting months for that. Would be a 5 star if it was 1.17.1 T_T
